JOIN OUR OUTSTANDING TEAM!

The ideal candidate performs a variety of civil engineer and office work that includes planning and design of public works and capital improvement projects, regulatory oversight, and private development review. Position may be filled at the Associate Engineer or Senior Engineer level depending upon selected candidate's qualifications.

To Qualify for the Associate Engineer:

Possession of a valid Class C California driver's license; and equivalent to a Bachelor of Science degree from an accredited college or university in civil engineering or a related engineering field; and three years of responsible professional civil engineering experience performing duties comparable to those of an Assistant Engineer recent progressively responsible experience performing public works and civil engineering work.

Possession of a valid certificate of registration as a Civil Engineer issued by the California State Board of Registration for Professional Engineers is required.

To Qualify for the Senior Engineer:

Possession of a valid Class C California driver's license; and equivalent to a Bachelor of Science degree from an accredited college or university in civil engineering or a closely related field; and four years of recent, progressively responsible experience performing public works and civil engineering work; including one year in a supervisory or lead capacity.

Special Requirements: Registration as a California Professional Civil Engineer is required. Registration as a California Licensed Land Surveyor is desirable.
