## TREATMENT OPERATOR

Camrosa Water District

Camrillo, California

Salary: \$55,000 – \$90,000 Annually

Comprehensive family medical, dental, vision, life, disability, PERS

Camrosa is seeking System Operators I/II to join our agile, versatile, dedicated team of water and wastewater operators serving the eastern Camarillo and Santa Rosa Valley communities. This position operates and maintains Camrosa's potable water production, treatment, and storage facilities including Round Mountain Water Treatment Plant, with a focus on treatment and production.

System Operators have areas of expertise and focus but work on a wide variety of projects across all aspects of the District's physical infrastructure, including potable, nonpotable, wastewater, and recycled water. No two days are the same at Camrosa, and we encourage dual certification, require independence, and reward initiative.

System Operator I (\$26.44 – \$36.06 per hour): Possession and maintenance of a valid: Class "C" California Driver's License; Grade D1 Water Distribution and Grade T1 Water Treatment Operator Certificates.

System Operator II (\$28.85 – \$43.27): Three (3) years of experience. Possession and maintenance of Grade D2 Water Distribution and Grade T2 Water Treatment Operator Certificates. Possession and maintenance of a valid Class "A" California Driver's License or the ability to obtain within twelve (12) months of employment.

Send resume and cover letter to Kevin Wahl, Superintendent of Operations, at [jobs@camrosa.com](mailto:jobs@camrosa.com). First review of applications will be MONDAY AUGUST 22. Job open until filled.
