

SENIOR CIVIL ENGINEER
BUILDING SAFETY DIVISION

City of Malibu, California

Salary: \$120,240 - \$156,885 annually (plus excellent benefits)

Full-Time Permanent Position (subject to probation)

Under general direction, performs the most complex and difficult professional field and office civil engineering work related to the Building Safety Division; consults with general public, developers, contractors and representatives of other agencies regarding residential and nonresidential plan reviews; including building and grading; development for compliance with all State and local codes; provides professional assistance to the Environmental Sustainability Director/Building Official, the City Council and others in areas of expertise; facilitates the issuance of all construction permits; performs a variety of studies and prepares and presents staff reports acts as the City Building Official in his/her absence; and performs related work as required.

Ideal Candidate: The ideal candidate will have knowledge of the principles, practices, and procedures related to California's building code and permit compliance. Must have extensive knowledge in building safety, construction, inspections, and plan review background, operational characteristics, services, and activities of a municipal building code enforcement program, including California building, plumbing, mechanical, and electrical codes. The Senior Civil Engineer will have skill in conducting complex professional and technical work in the review of plans, drawings, specifications, calculations, inspections and permits for construction projects. Must have ability to effectively represent the department and the City in meetings with governmental agencies, community groups, various business, professional, and regulatory organizations, and individuals, and have experience directing and reviewing the work of support staff on a project or day-to-day basis.

Minimum Qualifications Required: Graduation from an accredited four-year college or university with major coursework in building trades, construction management, architecture, civil engineering, community development, or public administration or a related field; a minimum of five (5) years of responsible professional experience in building trade and field inspection; and a minimum of three (3) years of supervisory experience in a municipal setting. Possession of an advanced degree is highly desirable. Must possess registration in the State of California as a Civil Engineer or Structural Engineer. Must also possess certification as a Building Inspector and one other related trade through the International Conference of Building Officials (ICBO) or International Code Council (ICC) and/or certification as a Combination Inspector by ICBO or ICC. Possession of, or ability to obtain, certification as a Building Official within one year of employment. Must possess and maintain a valid California Class C Driver License and have a satisfactory driving record.

Applicants must submit a completed online City Employment Application and Resume. Applications will be accepted on a continuous basis until the position is filled. Resumes will not be accepted in lieu of a City Employment Application. Visit MalibuCity.org/jobs for more information about this position, benefits, and to apply online. EOE/ADA
