

CITY OF SIMI VALLEY

SENIOR ENGINEERING TECHNICIAN

City of Simi Valley, California

Salary: \$32.47 - \$41.46 hourly

with Excellent Benefits

The City of Simi Valley is recruiting for a Senior Engineering Technician. The Senior Engineering Technician will perform a variety of tasks related in the performance of sub-professional engineering office, design assistance, drafting, as well as provide customer service support. Under general supervision (Engineering Technician) or direction (Senior Engineering Technician), participates in a variety of technical civil engineering work involving both field and office support of engineering projects; compiles data and prepares engineering sketches, exhibits, plans and maps, cost estimates and bid specifications; collaborates and confers with developers, architects and engineers; and provides support to professional engineering staff.

The ideal candidate would have the ability to read, understand, and interpret multi-discipline engineering plans, drawings, specifications, and other technical documents as well as prepare engineering design drawings using the latest version of AutoCAD; be familiar with Civil Engineering terminology and drafting practices; be proficient in using ArcGIS; demonstrate experience in effectively communicating technical ideas to non-technical personnel, both verbally and in writing. Must be a self-starter with a can-do attitude and always willing to assist where needed.

This recruitment is open until filled. The first review of applications will occur on September 15, 2023, or when 50 applications have been received. This recruitment may close at any time. Candidates who possess the best combination of qualifications will be invited by e-mail to the next steps in our process. For more information and to apply, please visit: www.simivalley.org/careers
