

ENGINEERING MANAGER

Otay Water District

Spring Valley, California

\$155,610.87 - \$194,512.8059/annually

Join the Otay Water District (District) Management Team and as a member of the Otay Team, you will play an important role in the Engineering Department. This is a great opportunity to be a member of a progressive and community focused organization.

The Engineering Manager will be responsible for managing the activities of staff and several Sections of the Engineering Department which includes: Planning, Budgeting, Design, Construction, and Inspection of all District facilities as well as the administration of all developer and new customer construction and service applications. The Department also manages an annual Capital Improvement Program (CIP) of approximately \$15.3 million (2024).

REQUIREMENTS: 7 years of experience in planning, design, construction, and construction management for a water, wastewater, and/or reclaimed water facility, including 4 years of experience managing consultants or 2 years of related supervisory experience.

EDUCATION: Bachelor's degree in Civil Engineering or closely related field. Master's degree desirable. Professional Civil Engineering registration in any State and a Professional Civil Engineering registration in the State of California within 1 year of appointment.

For the earliest consideration, please submit your online application materials by September 13, 2023. For more information on the position and application guidelines, please go to the Employment section of our website at www.otaywater.gov. EOE
