

TRANSPORTATION PROGRAM MANAGER

Coachella Valley Association of Governments (CVAG)

Position grade: \$125,061 - \$179,774 annually
depending on qualifications.

Plus a generous paid benefits package including
CalPERS PPO/HMO, vision and dental plans.

CVAG works closely with its member jurisdictions and other stakeholders on a range of regional transportation priorities, so the ideal candidate must be an innovative problem solver who wants to make a true impact in the community. This full-time exempt position is part of a growing Transportation Department that is eager, enthusiastic, and experienced. CVAG staff members think boldly when it comes to easing congestion, accommodating future growth, and making it safer to walk or bike – creating ample opportunities for new projects and programs. CVAG's current projects include the 40-plus mile CV Link multi-modal transportation corridor; the CV Sync signal synchronization program; climate resiliency improvements along Indian Canyon Drive; and a regional broadband initiative that has attracted statewide attention. This position under general supervision of the Director of Transportation will assist in coordinating transportation project planning and delivery activities required to administer the Coachella Valley Transportation Program.

REQUIREMENTS: Bachelor's degree from an accredited college or university with coursework in engineering, planning, public or business administration, or a directly related field and five (5) years of experience in transportation and/or transit engineering and/or planning. Analytical, organization and communication skills as well as computer literacy (Microsoft Suites) in word processing, spreadsheets and transportation modeling are essential.

APPLY BY: Open until filled with first review on February 23, 2024. CVAG application, resume, supplemental questions, and cover letter required. Application and full job description may be obtained at: <https://www.cvag.org/employment.htm> or by calling (760) 346-1127.
