

CITY OF SIMI VALLEY

ASSOCIATE ENGINEER

PUBLIC WORKS/WATERWORKS DIVISION

City of Simi Valley, California

\$91,157.46-\$117,047.84 Annually

The new salary range effective April 2024, will be

\$94,803.76 - \$121,729.75 annually

The City of Simi Valley/ Waterworks District No. 8, Water Division, is seeking to fill an Associate Engineer position. The Associate Engineer is expected to design, prepare plans using the latest version of AutoCAD, specifications and construction cost estimates for a variety of water infrastructure improvement projects. Such projects include water main line replacement, water tank rehabilitation and repair, and pump station upgrades. Other duties include assessing the feasibility of water service for proposed developments, ability to utilize GIS and provide excellent customer service. The Associate Engineer supervises, assigns, reviews and participates in the work of staff responsible for performing professional and technical engineering services; ensures work quality and adherence to established policies and procedures; and performs the more technical and complex tasks relative to assigned area of responsibility. This is a broad classification with individual positions assigned to specific functional areas; duties and assignments may overlap depending on the operational needs of the department and staffing levels.

The ideal candidate takes initiative and accountability on producing work products, with a focus on the details of the work content and the final product. They will also possess strong interpersonal and communication skills, establishing and maintaining relationships with contractors, vendors, outside agencies and internal staff. They must be proficient in AutoCAD and GIS software, and have the technical background in water engineering. Minimum Qualifications for consideration: Any combination of education and experience that would likely provide the required knowledge and abilities is qualifying. A typical way to obtain the knowledge and abilities would be: Education/Training: Equivalent to a Bachelor's degree from an accredited college or university with major course work in engineering, architecture, or a related field. Experience: Three years of increasingly responsible engineering experience, or two years of architecture experience (when assigned to Building & Safety). License or Certificate: Possession of, or ability to obtain, an appropriate, valid driver's license. Possession of an Engineer in Training (EIT) certificate or two years of architectural experience (working under the direction of a licensed architect. Possession of, or ability to obtain, a Plans Examiner certificate may be required depending on area of assignment.

This recruitment is open until 5 p.m., February 9, 2024. For more information and to apply, visit: www.simivalley.org/careers
