

ENGINEERING MANAGER (CONSTRUCTION)

East Bay Municipal Utility District (EBMUD)

\$180,672 - \$274,032 Annually

EBMUD's Engineering and Construction Department is seeking a highly qualified individual with exceptional technical, interpersonal and communication skills. The current opening manages the Construction Division, reporting to the Director, Engineering and Construction. Sections within the Division include Construction Management and Inspection, Survey, and Plant Inspection.

Requirements: 1. Education: Bachelor's degree in a civil, mechanical or electrical engineering curriculum from an ABET accredited college or university, or a California EIT Certificate. 2. Experience: Eight years of professional engineering experience with a minimum of two years at a supervisory level comparable to EBMUD's Senior Engineer classification. 3. Licensing: Current registration as a Professional Civil, Mechanical or Electrical Engineer in the State of California. 4. An advanced degree in an accredited engineering curriculum may be substituted for one year of the required experience.

Other requirements: Must possess the physical characteristics to perform the critical and important duties of the position. Must be willing to work beyond normal work hours when needed, and travel as needed. Must possess a valid California driver's license and have a satisfactory driving record.

Submit a completed EBMUD application and the required supplemental question responses online at <https://www.governmentjobs.com/careers/ebmud> by 4:30 p.m., Friday, May 3, 2024. Only application materials submitted online during the filing period will be accepted.
