

GENERAL MANAGER

Rancho California Water District

\$270,000 - \$323,500

Plus Excellent benefits

DOQ

The General Manager is responsible for implementing the policy direction and decisions of the Board of Directors. As such, the General Manager plans, organizes, and directs all activities of the District, establishes goals, objectives, policies, and procedures for the District, and oversees the execution of all administrative policies, District programs, and the District's Strategic Plan and goals. Through subordinate managers, the General Manager is responsible for the supervision of District operations and staff, the management of all District engineering, planning, design, and construction activities. They will supervise and control all District administrative, operational, and financial affairs and represent the District on various federal, state, local, and industry-related initiatives, and efforts.

Education and Experience Any combination of education and experience that would likely provide the required knowledge, skills, and abilities is qualifying. A typical way to obtain the knowledge, skills, and abilities would be: A Bachelor's degree with a major in business administration, public administration, engineering, or a related field; and five (5) years of full-time executive management experience in the water industry. An advanced degree in business or public administration or engineering would also be preferred. For additional information on the process please contact William R. Kelly, President/CEO, Kelly Associates Management Group at williamk@ka-mg.com.

Open Until Filled. For additional information contact William R. Kelly, President/CEO, Kelly Associates Manage Group @williamk@ka-mg.com
