

## **NETWORK SYSTEM ANALYST I/II**

County of Nevada, CA

I: \$81,813-\$99,876/yr.; II: \$90,394-\$110,353/yr.

The County of Nevada, California, located in the scenic Sierra foothills, seeks a Network System Analyst I/II to support our enterprise vision of excellent community services by implementing and maintaining dependable, stable, and secure systems. Our infrastructure spans multiple locations, supporting primary and backup data centers, and cloud hosting environments. This is an excellent opportunity to join the award-winning Nevada County Information Systems Team as a Network Systems Analyst with a focus on troubleshooting the network, and administering next generation firewalls, LAN/WAN infrastructure, VPN appliances, and enterprise Wi-Fi and VoIP systems.

Minimum requirements include (I) completion of two years of college-level work in information systems, computer science, or a closely related field; or completion of two years of college-level work in any subject and two years of technical work experience; or five years of directly related technical computer services work experience; (II) in addition to above, two years' experience performing work equivalent to Nevada County's classification of Network System Analyst I.

Applicants are encouraged to apply immediately. Final filing date: 10/25/24. For specific details and to apply, please visit [nevadacountyca.gov](http://nevadacountyca.gov) (click "County Careers"), or call 530-265-7010 for general information.
