

SENIOR NETWORK SYSTEMS ANALYST

County of Nevada, CA

\$99,876 - \$121,929 annually, plus excellent benefits

Seeking an experienced Senior Network Systems Analyst for the role of server systems administrator for the Information Systems department, Server Team. This position will lead a team administering various systems including Windows Servers, Active Directory, SAN, Backup & DR solutions, Azure Cloud/Office365, and various security solutions in support of all county departments and programs. This position supports our enterprise vision of excellent community services by implementing and maintaining dependable, stable and secure systems. Our infrastructure spans multiple locations, supporting primary and backup data centers, and cloud hosting environments.

Minimum requirements include two years of college level work in computer science or a closely related field, including course work in techniques of systems analysis, and two years of journey level experience performing network user support at a level equivalent to Nevada County's classification of Network System Analyst II.

Open until filled. Apply immediately. For full details and to apply, please visit nevadacountyca.gov (click "County Careers"), or call 530-265-7010 for general information.
